

What is \$MATRXINU?

Predict the future of The Matrix Inu by creating it.

Be owners in the new future.

The Matrix Inu is a BEP-20 token, the first ever to pay tribute to the Matrix and the Shiba Inu at the same time. Two awesome and powerful communities, one collective token.

With Matrix Resurrections upon us, this token arrives to channel our fandom and show the world our power.

Like the Matrix - the longer you stay, the more you get out of it.
Like the Shiba Inu, you know what happens when a group of us rally together.

Given he's a fan of both universes, we will send tokens and reach out to Lord Elon, along with Keanu Reeves.

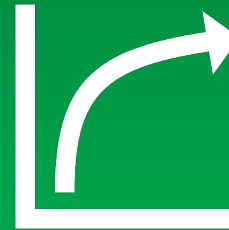

Powered by holders, for holders - achieving true decentralization and rewarding the community through ongoing reflection and giveaway contests.
